CANADIAN JOURNAL OF PHYSIOLOGY AND PHARMACOLOGY, VOLUME 47

AUTHOR INDEX

Under each name are listed, in chronological order of publication, all articles in which an author has participated

Abrahams, V. C.
Peripheral pathways and properties of uterine afferents in the cat. V. C. Abrahams and J. L. Teare, 576.
Ackermann, U.
Evidence for a humoral factor modifying the renal response to blood volume expansion in the rat. J. W. Pearce, H. Sonnenberg, A. T. Veress, and U. Ackermann, 377.
Altland, P. D.
Exercise tolerance of cold-acclimated rats: Serum and liver enzymes and histological changes. M. P. Dieter, P. D. Altland, and B. Highman, 1025.
Ammon, H. P. T.
The importance of the adrenergic beta-receptors for thermogenesis and survival of acutely cold-exposed mice. C.-J. Estler and H. P. T. Ammon, 427.
Anton, A. H.
Aminotriazole, thyroid function, and catecholamines in nephrogenic hypertension in rats. M. J. Fregly and A. H. Anton, 407.
Avakian, S.
Enhancement of drug activity by chymotrypsin: The synergistic anti-inflammatory activity of chymotrypsin and prednisolone. A. Wohlman, R. I. Ramirez, and S. Avakian, 301.
Bala, R. M.
Modified solid-phase (tube) radioimmunoassay of human growth hormone. R. M. Bala, K. A. Ferguson, and J. C. Beck, 803.
Banik, U. K.
Effects of medroxyprogesterone acetate and chlorpromazine on ovulation and vaginal cytology in a strain of 4-day cyclic rats. U. K. Banik and F. Herr, 573.
Banister, E. W.
The physical working capacity of blind and deaf school children. J. L. Cartmel and E. W. Banister, 833.
Bannard, R. A. B.
The cholinesterase-inhibitory characteristics of Parpanit and its analogues in relation to their protective effectiveness in the treatment of sarin-poisoned rodents. R. A. B. Bannard, J. G. Helie, J. E. Price, and I. W. Coleman, 1036.
Bapat, S. K.
Analysis of the central vasomotor effects of (−)-*N*-(1-phenylethyl)guanidine, a new adrenergic neuron blocking agent. S. K. Bapat, B. N. Dhawan, and R. C. Srimal, 725.
Barker, J. H.
Water intake of normal and desalivate rats on exposure to environmental heat. J. P. Lund, J. H. Barker, P. G. Dellow, and J. A. F. Stevenson, 849.
Barnes, R. V.
The effect of vasodilator drugs on the noradrenaline constrictor response in the isolated mesenteric artery. J. H. McNeill, R. V. Barnes, R. S. Davis, and J. B. Hook, 663.
Beare-Rogers, J. L.
Responses of young rats to an oral contraceptive fed with varying levels of pyridoxine. J. L. Beare-Rogers, C. G. Rogers, and Z. I. Sabry, 685.
Beaton, J. R.
Observations on an anorexigenic material isolated from urine. J. R. Beaton and P. S. Uehara, 291.
A note on the combined effects of exercise and food restriction on plasma enzyme activities in the rat. J. R. Beaton and B. Oyster, 396.
Beck, I. T.
The effect of local anesthetics on the transmural potential difference of the small intestine of the rat. P. K. Dinda and I. T. Beck, 445.
Beck, J. C.
Studies with fluorescein-conjugated antisera to growth hormones. I. Localization of antisera in the pituitary in various species. R. Nayak, E. E. McGarry, and J. C. Beck, 15.
Studies with fluorescein-conjugated antisera to growth hormones. II. Inhibition studies in the pituitary in various species. R. Nayak, E. E. McGarry, and J. C. Beck, 21.
Modified solid-phase (tube) radioimmunoassay of human growth hormone. R. M. Bala, K. A. Ferguson, and J. C. Beck, 803.
Bégin-Heick, N.
Investigations on the effects of hyperbaric oxygen on enzyme activity. N. Bégin-Heick, P. Hochstein, and G. B. Hill, 400.
Belither, A.
The effect of bradykinin on spontaneous and induced contractions of human uterine muscle in vitro. A. Belither, 223.

Belleau, B.
Pharmacology of EEDQ (*N*-ethoxycarbonyl-2-ethoxy-1,2-dihydroquinoline). R. R. Martel, R. Berman, and B. Belleau, 909.
Bencosme, S. A.
Quantitative electron microscopic analysis of the specific granule population of rat atrium. W. W. L. Chang and S. A. Bencosme, 483.
Berczi, I.
Biochemical studies on the anticalcinotic effect of sodium salicylate. I. Berczi and A. Somogyi, 597.
Berman, R.
Pharmacology of EEDQ (*N*-ethoxycarbonyl-2-ethoxy-1,2-dihydroquinoline). R. R. Martel, R. Berman, and B. Belleau, 909.
Best, C. H.
Alleviation of dietary cirrhosis with betaine and other lipotropic agents. C. H. Best, J. H. Ridout, and C. C. Lucas, 73.
Beznak, M.
Influence of aortic coarctation on myocardial glucose-6-phosphate dehydrogenase. J. R. E. Valadares, R. L. Singhal, M. R. Parulekar, and M. Beznak, 388.
Regression of cardiac hypertrophies of various origin. M. Beznak, B. Korecky, and G. Thomas, 579.
Biely, J.
Body temperature of chicks in response to lysine deficiency. K. R. Pastro, B. E. March, and J. Biely, 339.
Diminished thyroidal activity in chicks in response to lysine deficiency. K. R. Pastro, B. E. March, and J. Biely, 645.
Bihler, I.
The effect of muscle activity factor (MAF) on cardiac contractility and sugar transport. R. C. A. Frederickson, I. Bihler, and P. E. Dresel, 216.
Active transport of L-glucose and D-xylose in hamster intestine, in vitro. I. Bihler, N. D. Kim, and P. C. Sawh, 525.
Biron, P.
Fate of vasopressin and oxytocin in the pulmonary circulation. P. Biron and J.-C. Boileau, 713.
Blattberg, B.
Site of action of endotoxin in evoking bradycardia. B. Blattberg and M. N. Levy, 999.
Boileau, J.-C.
Fate of vasopressin and oxytocin in the pulmonary circulation. P. Biron and J.-C. Boileau, 713.
Bonnardeaux, J.
Propriétés physiologiques de systèmes tétracycliques présentant le squelette des stéroïdes avec deux atomes d'azote en position 15 et 16. J. Bonnardeaux and J. Lematre, 705.
Boomgaardt, J.
Comparison of fasting plasma amino acid patterns in the pig, rat, and chicken. J. Boomgaardt and B. E. McDonald, 392.
Borella, L. E.
Prolongation of certain effects of amphetamine by chlorpromazine. L. E. Borella, F. Herr, and A. Wojdan, 7.
The effect of some CNS depressants on the hypermotility and anorexia induced by amphetamine in rats. L. E. Borella, R. Paquette, and F. Herr, 841.
Boucher, R.
Renin activity in aortic tissue of rats. J. Rosenthal, R. Boucher, J. M. Rojo-Ortega, and J. Genest, 53.
Norepinephrine and renin content in arterial tissue from different vascular beds. J. Genest, S. Simard, J. Rosenthal, and R. Boucher, 87.
Effects of high temperature and acute diuresis on glucose-6-phosphate dehydrogenase activity of macula densa and plasma renin activity in rats. J. M. Rojo-Ortega, J. Rosenthal, R. Boucher, and J. Genest, 837.
Bradley, N. W.
Pancreatic amylase activity from ruminants fed different rations. J. J. Clary, G. E. Mitchell, Jr., C. O. Little, and N. W. Bradley, 161.
Brandi, G.
The effect of vasoactive drugs on local coronary flow. E. C. Torres and G. Brandi, 421.
Brockman, R. P.
The role of insulin in the synthesis of fetal glycogen. J. G. Manns and R. P. Brockman, 917.
Brodeur, J.
Influence of microsomal enzyme inducers on the reactivity of the isolated guinea pig seminal vesicle to angiotensin and tyramine. A. L. Gascon and J. Brodeur, 947.
Brody, T. M.
Further studies on the effect of various drugs on the uptake of tyramine-^{3}H and formation of octopamine-^{3}H in the rat heart. M. A. Commarato, T. M. Brody, and J. H. McNeill, 511.
The effect of triiodothyronine on cyclic AMP, phosphorylase, and adenyl cyclase in rat heart. J. H. McNeill, L. D. Muschek, and T. M. Brody, 913.
Brown, J. C.
Preparation of highly active enterogastrone. J. C. Brown, R. A. Pederson, E. Jorpes, and V. Mutt, 113.
Brown, R. J.
In vitro ACTH assay: Influence of strain on responsiveness of rat adrenals. J. Kraicer, A. Morris, J. L. Gosbee, R. G. Conrad, and R. J. Brown, 907.
Campbell, D. J.
The cardiovascular and metabolic effects of epinephrine in man and their modification by beta adrenergic blocking agents. W. A. Mahon and D. J. Campbell, 213.

Campbell, J. S.
Ubiquinone levels of human liver in health and disease. W. E. J. Phillips, K. Hoppner, T. K. Murray, and J. S. Campbell, 227.
Cantin, M.
Evidence for the nephrotoxicity of morphine sulfate in rats. C. Marchand, M. Cantin, and M. Côté, 649.
Carrier, O., Jr.
Reserpine inhibition of coronary arteriosclerosis. O. Carrier, Jr., B. R. Clower, and P. J. Whittington-Coleman, 105.
Carrière, S.
Effect of norepinephrine, isoproterenol, and adrenergic blockers upon the intrarenal distribution of blood flow. S. Carrière, 199.
Cartmel, J. L.
The physical working capacity of blind and deaf school children. J. L. Cartmel and E. W. Banister, 833.
Chang, T. M. S.
Removal of endogenous and exogenous toxins by a microencapsulated absorbent. T. M. S. Chang, 1043.
Chang, W. W. L.
Quantitative electron microscopic analysis of the specific granule population of rat atrium. W. W. L. Chang and S. A. Bencosme, 483.
Chatonnet, J.
Rates of formation and oxidation of lactic acid in dogs at rest and during moderate exercise. F. Depocas, Y. Minaire, and J. Chatonnet, 603.
Cherian, A. G.
Calcitonin content of ultimobranchial body tissue in chicks, pullets, and laying hens. E. R. Wittermann, A. G. Cherian, and I. C. Radde, 175.
Chernick, V.
Lobar blood flow and maturation of the fetal lamb lung. V. Chernick, 657.
Chou, S. T.
Comparison of ^{131}I retention in the plasma of rabbits fed toxic quantities of cupric or molybdate ions as supplements to a commercial pelleted diet or to an oats–alfalfa laboratory diet. A. M. Pepino, G. A. Robinson, S. T. Chou, and R. M. Liptrap, 635.
Cipera, J. D.
Comparative study of the metabolic fate of selenate, selenite, and sulfate ions in cartilage. J. D. Cipera and M. Hidiroglou, 591.
Clark, M. L.
Serotonin and other vasoactive agents in experimental decompression sickness. M. L. Clark, R. B. Philp, and C. W. Gowdey, 1033.
Clarke, R. H.
The effect of decreased feeding frequency on body composition in mature and immature male and female rats. J. M. Wardlaw, D. J. Hennyey, and R. H. Clarke, 47.
Clary, J. J.
Pancreatic amylase activity from ruminants fed different rations. J. J. Clary, G. E. Mitchell, Jr., C. O. Little, and N. W. Bradley, 161.
Classen, H. G.
Blood lipids in experimental cardiac necrosis. B. Solymoss, S. Varga, and H. G. Classen, 671.
Clower, B. R.
Reserpine inhibition of coronary arteriosclerosis. O. Carrier, Jr., B. R. Clower, and P. J. Whittington-Coleman, 105.
Effects of reserpine on cardiac calcification in DBA mice. G. T. Smith-Vaniz, B. R. Clower, and J. L. Matheny, 521.
Coleman, I. W.
The cholinesterase-inhibitory characteristics of Parpanit and its analogues in relation to their protective effectiveness in the treatment of sarin-poisoned rodents. R. A. B. Bannard, J. G. Helie, J. E. Price, and I. W. Coleman, 1036.
Collier, B.
The metabolism of choline by a sympathetic ganglion. B. Collier and C. Lang, 119.
The source of choline for acetylcholine synthesis in a sympathetic ganglion. B. Collier and F. C. MacIntosh, 127.
Commarato, M. A.
Further studies on the effect of various drugs on the uptake of tyramine-^{3}H and formation of octopamine-^{3}H in the rat heart. M. A. Commarato, T. M. Brody, and J. H. McNeill, 511.
Blockade by triptyline compounds of tyramine uptake and of tyramine-induced phosphorylase activation in cardiac tissue. J. H. McNeill and M. A. Commarato, 735.
Conrad, R. G.
In vitro ACTH assay: Influence of strain on responsiveness of rat adrenals. J. Kraicer, A. Morris, J. L. Gosbee, R. G. Conrad, and R. J. Brown, 907.
Cooper, T.
On a possible mode of action of the gonadotrophin-inhibiting factor (GIF) of human male urine. T. Cooper, 739.
Copp, D. H.
The effect of chicken and hog calcitonin on some parameters of Ca, P, and Mg metabolism in dogs. C. F. Cramer, C. O. Parkes, and D. H. Copp, 181.
Côté, M.
Evidence for the nephrotoxicity of morphine sulfate in rats. C. Marchand, M. Cantin, and M. Côté, 649.
Cramer, C. F.
The effect of chicken and hog calcitonin on some parameters of Ca, P, and Mg metabolism in dogs. C. F. Cramer, C. O. Parkes, and D. H. Copp, 181.

Cronin, R. F. P.
Influence of arterial oxygen tension on coronary vasodilator action of nitroglycerine. R. F. P. Cronin and A. Kovacs, 93.
Cruess, R. L.
Changes associated with experimental skin calcification. II. Changes of lipid, water content, and minerals during calcium accumulation. T. Yoshinari, T. Sakai, K. Iida, and R. L. Cruess, 505.
Cumming, G. R.
Effects of propranolol on the resting and exercise hemodynamics of pulmonary stenosis. G. R. Cumming and G. H. Mir, 137.
Currie, R. B.
A study of gastric secretion induced by close arterial infusions of histamine in the dog. G. W. Stavraky, J. R. Knill, and R. B. Currie, 533.
Daniel, H.
Criteria for differentiation of brown and white fat in the rat. H. Daniel and D. M. Derry, 941.
Davis, R. S.
The effect of vasodilator drugs on the noradrenaline constrictor response in the isolated mesenteric artery. J. H. McNeill, R. V. Barnes, R. S. Davis, and J. B. Hook, 663.
Dellow, P. G.
Water intake of normal and desalivate rats on exposure to environmental heat. J. P. Lund, J. H. Barker, P. G. Dellow, and J. A. F. Stevenson, 849.
Denstedt, O. F.
Experimental production of hemorrhagic shock in the rat. R. Steinman and O. F. Denstedt, 305.
Depocas, F.
Chronic vascular cannulation in the dog. F. Depocas and Y. Minaire, 492.
Rates of formation and oxidation of lactic acid in dogs at rest and during moderate exercise. F. Depocas, Y. Minaire, and J. Chatonnet, 603.
Derry, D. M.
Two sympathetic nerve supplies to brown adipose tissue of the rat. D. M. Derry, E. Schönbaum, and G. Steiner, 57.
Criteria for differentiation of brown and white fat in the rat. H. Daniel and D. M. Derry, 941.
Dhawan, B. N.
Analysis of the central vasomotor effects of (−)-*N*-(1-phenylethyl)guanidine, a new adrenergic neuron blocking agent. S. K. Bapat, B. N. Dhawan, and R. C. Srimal, 725.
Dieter, M. P.
Exercise tolerance of cold-acclimated rats: Serum and liver enzymes and histological changes. M. P. Dieter, P. D. Altland, and B. Highman, 1025.
Dimick, M. K.
A fat-mobilizing substance in chicken urine. I. Nir, M. K. Dimick, and S. A. Lepkovsky, 435.
Dinda, P. K.
The effect of local anesthetics on the transmural potential difference of the small intestine of the rat. P. K. Dinda and I. T. Beck, 445.
Dirks, J. H.
The role of hemodynamic factors on urinary calcium and magnesium excretion. A. Gonda, N. Wong, J. F. Seely, and J. H. Dirks, 619.
Drahota, Z.
The effect of cortisone on brown adipose tissue of young rats. P. Hahn, Z. Drahota, J. Skala, S. Kazda, and M. E. Towell, 975.
Dresel, P. E.
The effect of muscle activity factor (MAF) on cardiac contractility and sugar transport. R. C. A. Frederickson, I. Bihler, and P. E. Dresel, 216.
Dryden, E. E.
The effects of anoxia, glucose, ATP, and ouabain on Na, K, and Cl in the rabbit lens. Y. Matuk, J. F. Manery, and E. E. Dryden, 853.
Dziubalo-Blehm, S.
The effect of radioprotective agents on erythropoiesis in irradiated mice. P. V. Vittorio, E. A. Watkins, and S. Dziubalo-Blehm, 65.
The effect of erythropoietin on survival in irradiated polycythemic mice. P. V. Vittorio, E. A. Watkins, and S. Dziubalo-Blehm, 221.
Ely, D. G.
Amino and urea nitrogen levels in lambs receiving different nitrogen sources and injections of lysine and methionine. D. G. Ely, C. O. Little, and G. E. Mitchell, Jr., 929.
English, G.
Relationship between pancreozymin and cholinergic stimulation of pancreatic secretion. M. Nakamura, G. English, and D. F. Magee, 33.
Erikson, L. B.
The comparative effect of reserpine and carbethoxysyringoyl methylreserpate (Su 3118) upon the menstrual cycle of the rhesus monkey. L. B. Erikson, 99.
Estler, C.-J.
The importance of the adrenergic beta-receptors for thermogenesis and survival of acutely cold-exposed mice. C.-J. Estler and H. P. T. Ammon, 427.
Faltová, E.
Temperature and experimental acute cardiac necrosis. E. Faltová and O. Poupa, 295.

Ferguson, K. A.
Modified solid-phase (tube) radioimmunoassay of human growth hormone. R. M. Bala, K. A. Ferguson, and J. C. Beck, 803.
Findlay, J. D.
Noradrenergic innervation of the arrectores pilorum muscles of the ox (*Bos taurus*). G. E. Thompson, D. Robertshaw, and J. D. Findlay, 310.
Francis, L. E.
The effects of various pharmacological agents on the distribution of antihistamine activity of rat tissue extracts. M. Lefcort, L. E. Francis, and K. I. Melville, 755.
Frank, G. B.
Interaction between the effects of pentobarbital and procaine in mice: the importance of timing in drug addition studies. G. B. Frank and K. H. Jhamandas, 493.
Frederickson, R. C. A.
The effect of muscle activity factor (MAF) on cardiac contractility and sugar transport. R. C. A. Frederickson, I. Bihler, and P. E. Dresel, 216.
Freedman, H. J.
Pharmacological modification of the vascular response to systemically administered thrombolytic enzymes (CA-7). W. H. E. Roschlau, H. J. Freedman, and S. L. Miller, 369.
Fregly, M. J.
Aminotriazole, thyroid function, and catecholamines in nephrogenic hypertension in rats. M. J. Fregly and A. H. Anton, 407.
Friedman, S. M.
Sodium binding in the arterial wall. V. Palatý, B. Gustafson, and S. M. Friedman, 763.
Glass electrode measurement of ion transfers during rewarming of the single rat tail artery. S. M. Friedman, M. Nakashima, and V. Palatý, 863.
Garvey, H. L.
Effects of verapamil on cardiovascular responses to lateral hypothalamic stimulation in normal and coronary-ligated dogs. H. L. Garvey and K. I. Melville, 675.
Gascon, A. L.
Influence of microsomal enzyme inducers on the reactivity of the isolated guinea pig seminal vesicle to angiotensin and tyramine. A. L. Gascon and J. Brodeur, 947.
Gaskell, P.
The effect of repeated cold exposure of the hand on the reactivity of digital vessels. P. Gaskell and K. L. Long, 261.
Geller, E.
Response differences in some steroid-sensitive hepatic enzymes in the fasting rat. A. Yuwiler, E. Geller, and S. Schapiro, 317.
Genest, J.
Renin activity in aortic tissue of rats. J. Rosenthal, R. Boucher, J. M. Rojo-Ortega, and J. Genest, 53.
Norepinephrine and renin content in arterial tissue from different vascular beds. J. Genest, S. Simard, J. Rosenthal, and R. Boucher, 87.
Effects of high temperature and acute diuresis on glucose-6-phosphate dehydrogenase activity of macula densa and plasma renin activity in rats. J. M. Rojo-Ortega, J. Rosenthal, R. Boucher, and J. Genest, 837.
Godin, C.
Vitamin C activity of D-isoascorbic acid for the guinea pig. O. Pelletier and C. Godin, 985.
Goldenberg, M. M.
Effect of atropine and DMAE (a hemicholinium derivative) on contractile responses of the guinea pig ileum. M. M. Goldenberg, 185.
Gonda, A.
The role of hemodynamic factors on urinary calcium and magnesium excretion. A. Gonda, N. Wong, J. F. Seely, and J. H. Dirks, 619.
Goodhead, B.
Blood flow in different areas of the gastrointestinal tract in the anesthetized dog. B. Goodhead, 787.
Gornall, A. G.
Effects of aldosterone on blood pressure and glucose-6-phosphate dehydrogenase activity of heart muscle. C. C. Liew and A. G. Gornall, 193.
Gosbee, J. L.
Stress-free parenteral injections in the rat. J. L. Gosbee and J. Kraicer, 209.
In vitro ACTH assay: Influence of strain on responsiveness of rat adrenals. J. Kraicer, A. Morris, J. L. Gosbee, R. G. Conrad, and R. J. Brown, 907.
Gowdey, C. W.
Serotonin and other vasoactive agents in experimental decompression sickness. M. L. Clark, R. B. Philp, and C. W. Gowdey, 1033.
Goyer, G. R.
Action of pyridine-2-aldoxime methochloride (PAM) on the rectus abdominis muscle of the frog. G. R. Goyer, 1009.
Graystone, P.
A simple rate meter and oscilloscope intensity modulator for single cell recording. P. Graystone, N. Owen, and H. McLennan, 398.
Greenway, C. V.
β-Adrenergic receptors in the hepatic arterial bed of the anesthetized cat. C. V. Greenway and A. E. Lawson, 415.

Gustafson, B.
Sodium binding in the arterial wall. V. Palatý, B. Gustafson, and S. M. Friedman, 763.
Guthrie, F. E.
A possible antidote for methanol poisoning in mice. A. Hassan, R. J. Monroe, and F. E. Guthrie, 107.
Hahn, P.
The effect of cortisone on brown adipose tissue of young rats. P. Hahn, Z. Drahota, J. Skala, S. Kazda, and M. E. Towell, 975.
Haist, R. E.
Insulin biosynthesis: Effects of carbohydrates and related compounds. B. J. Lin and R. E. Haist, 791.
Hall, C. E.
Interaction between desoxycorticosterone treatment, fluid intake, sodium consumption, blood pressure, and organ changes in rats drinking water, saline, or sucrose solution. C. E. Hall and O. Hall, 81.
Hall, J. D.
The exchange of glucose across the liver cell membrane. G. Hetenyi, Jr., K. H. Norwich, D. R. Studney, and J. D. Hall, 361.
Hall, O.
Interaction between desoxycorticosterone treatment, fluid intake, sodium consumption, blood pressure, and organ changes in rats drinking water, saline, or sucrose solution. C. E. Hall and O. Hall, 81.
Harwood, J. P.
The effect of temperature on the responses to electrical stimulation of the isolated cerebral cortex of the cat. J. P. Harwood and H. D. Sanders, 747.
Hassan, A.
A possible antidote for methanol poisoning in mice. A Hassan, R. J. Monroe, and F. E. Guthrie, 107.
Hays, F. L.
Cold climate and cold temperature induced changes in the heat production and thermal insulation of sheep. A. J. F. Webster, A. M. Hicks, and F. L. Hays, 553.
Catecholamines and cold thermogenesis in sheep. A. J. F. Webster, J. H. Heitman, F. L. Hays, and G. P. Olynyk, 719.
Hedlin, A. M.
Fibrinolytic activities of euglobulins precipitated at pH 6.4, 6.0, and 5.3. A. M. Hedlin and F. C. Monkhouse, 935.
Heitman, J. H.
Catecholamines and cold thermogenesis in sheep. A. J. F. Webster, J. H. Heitman, F. L. Hays, and G. P. Olynyk, 719.
Helie, J. G.
The cholinesterase-inhibitory characteristics of Parpanit and its analogues in relation to their protective effectiveness in the treatment of sarin-poisoned rodents. R. A. B. Bannard, J. G. Helie, J. E. Price, and I. W. Coleman, 1036.
Hennyey, D. J.
The effect of decreased feeding frequency on body composition in mature and immature male and female rats. J. M. Wardlaw, D. J. Hennyey, and R. H. Clarke, 47.
Héroux, O.
Effect of high- and low-bulk diets on the thyroxine turnover rate in rats with acute and chronic exposure to different temperatures. O. Héroux and V. M. Petrovic, 963.
Herr, F.
Prolongation of certain effects of amphetamine by chlorpromazine. L. E. Borella, F. Herr, and A. Wojdan, 7.
Effects of medroxyprogesterone acetate and chlorpromazine on ovulation and vaginal cytology in a strain of 4-day cyclic rats. U. K. Banik and F. Herr, 573.
The effect of some CNS depressants on the hypermotility and anorexia induced by amphetamine in rats. L. E. Borella, R. Paquette, and F. Herr, 841.
Hetenyi, G., Jr.
The exchange of glucose across the liver cell membrane. G. Hetenyi, Jr., K. H. Norwich, D. R. Studney, and J. D. Hall, 361.
Hicks, A. M.
Cold climate and cold temperature induced changes in the heat production and thermal insulation of sheep. A. J. F. Webster, A. M. Hicks, and F. L. Hays, 553.
Hidiroglou, M.
Intravascular transport of selenium by chick serum proteins. K. J. Jenkins, M. Hidiroglou, and J. F. Ryan, 459.
The distribution of coenzyme Q in the tissues of the gravid ewe and fetus. M. Hidiroglou, 571.
Comparative study of the metabolic fate of selenate, selenite, and sulfate ions in cartilage. J. D. Cipera and M. Hidiroglou, 591.
Selenium distribution and radiotocopherol metabolism in the pregnant ewe and fetal lamb. M. Hidiroglou, I. Hoffman, and K. J. Jenkins, 953.
Highman, B.
Exercise tolerance of cold-acclimated rats: Serum and liver enzymes and histological changes. M. P. Dieter, P. D. Altland, and B. Highman, 1025.
Hildes, J. A.
Vitamin B_{12} absorption in dogs with chronic isolated intestinal loops. R. M. Taylor, J. A. Hildes, and J. F. Lind, 497.
Hill, G. B.
Investigations on the effects of hyperbaric oxygen on enzyme activity. N. Bégin-Heick, P. Hochstein, and G. B. Hill, 400.
Hinshaw, L. B.
Effects of dopamine on the liver before and following administration of endotoxin. L. L. Shanbour and L. B. Hinshaw, 923.

Hochstein, P.
Investigations on the effects of hyperbaric oxygen on enzyme activity. N. Bégin-Heick, P. Hochstein, and G. B. Hill, 400.
Hoffman, I.
Selenium distribution and radiotocopherol metabolism in the pregnant ewe and fetal lamb. M. Hidiroglou, I. Hoffman, and K. J. Jenkins, 953.
Hook, J. B.
The effect of vasodilator drugs on the noradrenaline constrictor response in the isolated mesenteric artery. J. H. McNeill, R. V. Barnes, R. S. Davis, and J. B. Hook, 663.
Hoppner, K.
Ubiquinone levels of human liver in health and disease. W. E. J. Phillips, K. Hoppner, T. K. Murray, and J. S. Campbell, 227.
Horne, M. L.
Studies on the cardiotoxicity of ouabain. A. K. Reynolds and M. L. Horne, 165.
Hoshino, K.
Lethal factor released from submandibular grafts in mice. K. Hoshino and C. D. Lin, 329.
Testosterone dependency of the lethal factor in mouse submandibular gland isografts. C. D. Lin and K. Hoshino, 335.
Howat, M. R.
A direct-reading mercury thermometer for the wet bulb globe temperature index. N. B. G. Taylor, L. A. Kuehn, and M. R. Howat, 277.
Iida, K.
Changes associated with experimental skin calcification. II. Changes of lipid, water content, and minerals during calcium accumulation. T. Yoshinari, T. Sakai, K. Iida, and R. L. Cruess, 505.
Intscher, K.
Effect of calcitonin on the domestic fowl. L. Kraintz and K. Intscher, 313.
Jarratt, A. M.
The effect of adrenal demedullation on the blood sugar level of rats subjected to long-term cold stress. A. M. Jarratt and N. W. Nowell, 1.
Jasper, H. H.
Rate of release of amino acids from the cerebral cortex in the cat as affected by brainstem and thalamic stimulation. H. H. Jasper and I. Koyama, 889.
Jenkins, K. J.
Intravascular transport of selenium by chick serum proteins. K. J. Jenkins, M. Hidiroglou, and J. F. Ryan, 459.
Selenium distribution and radiotocopherol metabolism in the pregnant ewe and fetal lamb. M. Hidiroglou, I. Hoffman, and K. J. Jenkins, 953.
Jhamandas, K. H.
Interaction between the effects of pentobarbital and procaine in mice: the importance of timing in drug addition studies. G. B. Frank and K. H. Jhamandas, 493.
Jorpes, E.
Preparation of highly active enterogastrone. J. C. Brown, R. A. Pederson, E. Jorpes, and V. Mutt, 113.
Josenhans, W. T.
The effect of facial cold stimulation on airway conductance in healthy man. W. T. Josenhans, G. N. Melville, and W. T. Ulmer, 453.
Kadar, D.
Inhibition of prostaglandin effects by ouabain in the canine vascular tissue. D. Kadar and F. A. Sunahara, 871.
Kazda, S.
The effect of cortisone on brown adipose tissue of young rats. P. Hahn, Z. Drahota, J. Skala, S. Kazda, and M. E. Towell, 975.
Keeler, R.
Evidence for a renal-dependent factor in the control of muramidase (lysozyme) formation. R. Keeler, 831.
Kim, N. D.
Active transport of L-glucose and D-xylose in hamster intestine, in vitro. I. Bihler, N. D. Kim, and P. C. Sawh, 525.
Knill, J. R.
A study of gastric secretion induced by close arterial infusions of histamine in the dog. G. W. Stavraky, J. R. Knill, and R. B. Currie, 533.
Kohli, J. D.
A comparative study of dopamine and noradrenaline on the rabbit aorta. J. D. Kohli, 171.
Korecky, B.
Effect of growth hormone and thyroxine on isometric contractile mechanics of cardiac muscle. R. Minelli and B. Korecky, 545.
Regression of cardiac hypertrophies of various origin. M. Beznak, B. Korecky, and G. Thomas, 579.
Kovacs, A.
Influence of arterial oxygen tension on coronary vasodilator action of nitroglycerine. R. F. P. Cronin and A. Kovacs, 93.
Kowalewski, K.
Effect of long-term treatment with an anticholinergic drug on parietal cell mass in rats. K. Kowalewski, 402.
Koyama, I.
Rate of release of amino acids from the cerebral cortex in the cat as affected by brainstem and thalamic stimulation. H. H. Jasper and I. Koyama, 889.
Kraicer, J.
Stress-free parenteral injections in the rat. J. L. Gosbee and J. Kraicer, 209.
In vitro ACTH assay: Influence of strain on responsiveness of rat adrenals. J. Kraicer, A. Morris, J. L. Gosbee R. G. Conrad, and R. J. Brown, 907.

Kraintz, L.
Effect of calcitonin on the domestic fowl. L. Kraintz and K. Intscher, 313.
The effect of fluoride ingestion on the response of the rat to parathormone and calcitonin. L. Kraintz, 477.
Kuehn, L. A.
A direct-reading mercury thermometer for the wet bulb globe temperature index. N. B. G. Taylor, L. A. Kuehn, and M. R. Howat, 277.
Lachapelle, J.
Comparative effect of procainamide and lidocaine on myocardial contractility. M. Nahas, J. Lachapelle, and G. M. Tremblay, 1038.
Lang, C.
The metabolism of choline by a sympathetic ganglion. B. Collier and C. Lang, 119.
Lawson, A. E.
β-Adrenergic receptors in the hepatic arterial bed of the anesthetized cat. C. V. Greenway and A. E. Lawson, 415.
Lefcort, M.
The effects of various pharmacological agents on the distribution of antihistamine activity of rat tissue extracts. M. Lefcort, L. E. Francis, and K. I. Melville, 755.
Lematre, J.
Propriétés physiologiques de systèmes tétracycliques présentant le squelette des stéroïdes avec deux atomes d'azote en position 15 et 16. J. Bonnardeaux and J. Lematre, 705.
Lepkovsky, S. A.
A fat-mobilizing substance in chicken urine. I. Nir, M. K. Dimick, and S. A. Lepkovsky, 435.
Levy, M. N.
Site of action of endotoxin in evoking bradycardia. B. Blattberg and M. N. Levy, 999.
Liew, C. C.
Effects of aldosterone on blood pressure and glucose-6-phosphate dehydrogenase activity of heart muscle. C. C. Liew and A. G. Gornall, 193.
Lin, B. J.
Insulin biosynthesis: Effects of carbohydrates and related compounds. B. J. Lin and R. E. Haist, 791.
Lin, C. D.
Lethal factor released from submandibular grafts in mice. K. Hoshino and C. D. Lin, 329.
Testosterone dependency of the lethal factor in mouse submandibular gland isografts. C. D. Lin and K. Hoshino, 335.
Lind, J. F.
Vitamin B_{12} absorption in dogs with chronic isolated intestinal loops. R. M. Taylor, J. A. Hildes, and J. F. Lind, 497.
Ling, G. M.
Metabolic control mechanisms in mammalian systems. IV. Androgenic induction of hexokinase and glucose-6-phosphate dehydrogenase in rat seminal vesicles. R. L. Singhal and G. M. Ling, 233.
Liptrap, R. M.
Comparison of ^{131}I retention in the plasma of rabbits fed toxic quantities of cupric or molybdate ions as supplements to a commercial pelleted diet or to an oats–alfalfa laboratory diet. A. M. Pepino, G. A. Robinson, S. T. Chou, and R. M. Liptrap, 635.
Little, C. O.
Pancreatic amylase activity from ruminants fed different rations. J. J. Clary, G. E. Mitchell, Jr., C. O. Little, and N. W. Bradley, 161.
Amino and urea nitrogen levels in lambs receiving different nitrogen sources and injections of lysine and methionine. D. G. Ely, C. O. Little, and G. E. Mitchell, Jr., 929.
Long, K. L.
The effect of repeated cold exposure of the hand on the reactivity of digital vessels. P. Gaskell and K. L. Long, 261.
Love, J. A.
Some response characteristics of cells of the magnocellular division of the medial geniculate body of the cat. J. A. Love and J. W. Scott, 881.
Lucas, C. C.
Alleviation of dietary cirrhosis with betaine and other lipotropic agents. C. H. Best, J. H. Ridout, and C. C. Lucas, 73.
Luick, J. R.
^{75}Se-selenomethionine turnover as an index of protein metabolism during cold exposure of white mice. M. K. Yousef and J. R. Luick, 273.
Lund, J. P.
Water intake of normal and desalivate rats on exposure to environmental heat. J. P. Lund, J. H. Barker, P. G. Dellow, and J. A. F. Stevenson, 849.
Lupien, P. J.
Some biochemical and physiological effects of AY-9944 on laying hens. G. B. Martin and P. J. Lupien, 281.
MacCannell, K. L.
Hemodynamic responses to dopamine and to isoproterenol following acute myocardial injury. K. L. MacCannell, 25.
Hemodynamic responses to glycols and to hemolysis. K. L. MacCannell, 563.
McDonald, B. E.
Comparison of fasting plasma amino acid patterns in the pig, rat, and chicken. J. Boomgaardt and B. E. McDonald, 392.

McEwan Jenkinson, D.
Nonshivering thermogenesis in the newborn lamb. G. E. Thompson and D. McEwan Jenkinson, 249.
McGarry, E. E.
Studies with fluorescein-conjugated antisera to growth hormones. I. Localization of antisera in the pituitary in various species. R. Nayak, E. E. McGarry, and J. C. Beck, 15.
Studies with fluorescein-conjugated antisera to growth hormones. II. Inhibition studies in the pituitary in various species. R. Nayak, E. E. McGarry, and J. C. Beck, 21.
MacIntosh, F. C.
The source of choline for acetylcholine synthesis in a sympathetic ganglion. B. Collier and F. C. MacIntosh, 127.
MacKenzie, E. P.
Use of the Programma 101 desk-top computer in radioimmunoassay and liquid scintillation calculations. J. G. Manns and E. P. MacKenzie, 490.
McLennan, H.
A simple rate meter and oscilloscope intensity modulator for single cell recording. P. Graystone, N. Owen, and H. McLennan, 398.
McNeill, J. H.
Further studies on the effect of various drugs on the uptake of tyramine-^{3}H and formation of octopamine-^{3}H in the rat heart. M. A. Commarato, T. M. Brody, and J. H. McNeill, 511.
Reserpine supersensitivity to catecholamine-induced cardiac phosphorylase activation. J. H. McNeill, 515.
The effect of vasodilator drugs on the noradrenaline constrictor response in the isolated mesenteric artery. J. H. McNeill, R. V. Barnes, R. S. Davis, and J. B. Hook, 663.
Blockade by triptyline compounds of tyramine uptake and of tyramine-induced phosphorylase activation in cardiac tissue. J. H. McNeill and M. A. Commarato, 735.
The effect of triiodothyronine on cyclic AMP, phosphorylase, and adenyl cyclase in rat heart. J. H. McNeill, L. D. Muschek, and T. M. Brody, 913.
McSherry, B. J.
The survival of DF^{32}P-labelled erythrocytes in molybdate-fed rabbits. G. A. Robinson, V. E. O. Valli, B. J. McSherry, and A. M. Pepino, 343.
Magee, D. F.
Relationship between pancreozymin and cholinergic stimulation of pancreatic secretion. M. Nakamura, G. English, and D. F. Magee, 33.
Mahon, W. A.
The cardiovascular and metabolic effects of epinephrine in man and their modification by beta adrenergic blocking agents. W. A. Mahon and D. J. Campbell, 213.
Manery, J. F.
The effects of anoxia, glucose, ATP, and ouabain on Na, K, and Cl in the rabbit lens. Y. Matuk, J. F. Manery, and E. E. Dryden, 853.
Mannard, A.
Oscillatory behavior of the sympathetic system induced by picrotoxin. C. Polosa, P. Rosenberg, A. Mannard, N. Wolkove, and I. Wyszogrodski, 815.
Manns, J. G.
Use of the Programma 101 desk-top computer in radioimmunoassay and liquid scintillation calculations. J. G. Manns and E. P. MacKenzie, 490.
The role of insulin in the synthesis of fetal glycogen. J. G. Manns and R. P. Brockman, 917.
March, B. E.
Body temperature of chicks in response to lysine deficiency. K. R. Pastro, B. E. March, and J. Biely, 339.
Diminished thyroidal activity in chicks in response to lysine deficiency. K. R. Pastro, B. E. March, and J. Biely, 645.
Marchand, C.
Evidence for the nephrotoxicity of morphine sulfate in rats. C. Marchand, M. Cantin, and M. Côté, 649.
Martel, R. R.
Pharmacology of EEDQ (*N*-ethoxycarbonyl-2-ethoxy-1,2-dihydroquinoline). R. R. Martel, R. Berman, and B. Belleau, 909.
Martin, G. B.
Some biochemical and physiological effects of AY-9944 on laying hens. G. B. Martin and P. J. Lupien, 281.
Matheny, J. L.
Effects of reserpine on cardiac calcification in DBA mice. G. T. Smith-Vaniz, B. R. Clower, and J. L. Matheny, 521.
Matuk, Y.
The effects of anoxia, glucose, ATP, and ouabain on Na, K, and Cl in the rabbit lens. Y. Matuk, J. F. Manery, and E. E. Dryden, 853.
Melville, G. N.
The effect of facial cold stimulation on airway conductance in healthy man. W. T. Josenhans, G. N. Melville, and W. T. Ulmer, 453.
Melville, K. I.
Effects of verapamil on cardiovascular responses to lateral hypothalamic stimulation in normal and coronary-ligated dogs. H. L. Garvey and K. I. Melville, 675.
The effects of various pharmacological agents on the distribution of antihistamine activity of rat tissue extracts. M. Lefcort, L. E. Francis, and K. I. Melville, 755.
Miller, S. L.
Pharmacological modification of the vascular response to systemically administered thrombolytic enzymes (CA-7). W. H. E. Roschlau, H. J. Freedman, and S. L. Miller, 369.
Minaire, Y.
Chronic vascular cannulation in the dog. F. Depocas and Y. Minaire, 492.

Rates of formation and oxidation of lactic acid in dogs at rest and during moderate exercise. F. Depocas, Y. Minaire, and J. Chatonnet, 603.

Minelli, R.
Effect of growth hormone and thyroxine on isometric contractile mechanics of cardiac muscle. R. Minelli and B. Korecky, 545.

Mir, G. H.
Effects of propranolol on the resting and exercise hemodynamics of pulmonary stenosis. G. R. Cumming and G. H. Mir, 137.

Mitchell, G. E., Jr.
Pancreatic amylase activity from ruminants fed different rations. J. J. Clary, G. E. Mitchell, Jr., C. O. Little, and N. W. Bradley, 161.
Amino and urea nitrogen levels in lambs receiving different nitrogen sources and injections of lysine and methionine. D. G. Ely, C. O. Little, and G. E. Mitchell, Jr., 929.

Mogenson, G. J.
Test of a possible influence of the drinking system of the lateral hypothalamus on the mechanisms controlling antidiuretic hormone. G. J. Mogenson, 109.

Monkhouse, F. C.
Fibrinolytic activities of euglobulins precipitated at pH 6.4, 6.0, and 5.3. A. M. Hedlin and F. C. Monkhouse, 935.

Monroe, R. J.
A possible antidote for methanol poisoning in mice. A. Hassan, R. J. Monroe, and F. E. Guthrie, 107.

Morris, A.
In vitro ACTH assay: Influence of strain on responsiveness of rat adrenals. J. Kraicer, A. Morris, J. L. Gosbee, R. G. Conrad, and R. J. Brown, 907.

Murray, T. K.
Ubiquinone levels of human liver in health and disease. W. E. J. Phillips, K. Hoppner, T. K. Murray, and J. S. Campbell, 227.

Muschek, L. D.
The effect of triiodothyronine on cyclic AMP, phosphorylase, and adenyl cyclase in rat heart. J. H. McNeill, L. D. Muschek, and T. M. Brody, 913.

Mutt, V.
Preparation of highly active enterogastrone. J. C. Brown, R. A. Pederson, E. Jorpes, and V. Mutt, 113.

Myers, D. K.
Incorporation of radioactive label from pyrimidines into liver lipids. D. K. Myers and S. Ram, 731.

Nadeau, R. A.
The nature of Wenckebach cycles. F. A. Roberge and R. A. Nadeau, 695.

Nahas, M.
Location of epicardial pacemaker electrodes and myocardial contractility. G. M. Tremblay and M. Nahas, 267.
Comparative effect of procainamide and lidocaine on myocardial contractility. M. Nahas, J. Lachapelle, and G. M. Tremblay, 1038.

Nakamura, M.
Relationship between pancreozymin and cholinergic stimulation of pancreatic secretion. M. Nakamura, G. English, and D. F. Magee, 33.

Nakashima, M.
Glass electrode measurement of ion transfers during rewarming of the single rat tail artery. S. M. Friedman, M. Nakashima, and V. Palatý, 863.

Nayak, R.
Studies with fluorescein-conjugated antisera to growth hormones. I. Localization of antisera in the pituitary in various species. R. Nayak, E. E. McGarry, and J. C. Beck, 15.
Studies with fluorescein-conjugated antisera to growth hormones. II. Inhibition studies in the pituitary in various species. R. Nayak, E. E. McGarry, and J. C. Beck, 21.

Niki, A.
Serotonin and the plasma amino acid reduction caused by a single injection of growth hormone. O. V. Sirek, A. Niki, H. Niki, and A. Sirek, 611.

Niki, H.
Serotonin and the plasma amino acid reduction caused by a single injection of growth hormone. O. V. Sirek, A. Niki, H. Niki, and A. Sirek, 611.

Nir, I.
A fat-mobilizing substance in chicken urine. I. Nir, M. K. Dimick, and S. A. Lepkovsky, 435.

Norwich, K. H.
The exchange of glucose across the liver cell membrane. G. Hetenyi, Jr., K. H. Norwich, D. R. Studney, and J. D. Hall, 361.

Nowell, N. W.
The effect of adrenal demedullation on the blood sugar level of rats subjected to long-term cold stress. A. M. Jarratt and N. W. Nowell, 1.

Ogilvie, R. I.
Determination of glomerular filtration rate with ^{57}Co-B_{12} and plasma protein binding of cyanocobalamin. R. I. Ogilvie and J. Ruedy, 349.

Olynyk, G. P.
Catecholamines and cold thermogenesis in sheep. A. J. F. Webster, J. H. Heitman, F. L. Hays, and G. P. Olynyk, 719.

Owen, N.
A simple rate meter and oscilloscope intensity modulator for single cell recording. P. Graystone, N. Owen, and H. McLennan, 398.

Oyster, B.
A note on the combined effects of exercise and food restriction on plasma enzyme activities in the rat. J. R. Beaton and B. Oyster, 396.
Palatý, V.
Sodium binding in the arterial wall. V. Palatý, B. Gustafson, and S. M. Friedman, 763.
Glass electrode measurement of ion transfers during rewarming of the single rat tail artery. S. M. Friedman, M. Nakashima, and V. Palatý, 863.
Paquette, R.
The effect of some CNS depressants on the hypermotility and anorexia induced by amphetamine in rats. L. E. Borella, R. Paquette, and F. Herr, 841.
Parent, A.
The medial forebrain bundle (MFB) and ascending monoaminergic pathways in the cat. A. Parent and L. J. Poirier, 781.
Parkes, C. O.
The effect of chicken and hog calcitonin on some parameters of Ca, P, and Mg metabolism in dogs. C. F. Cramer, C. O. Parkes, and D. H. Copp, 181.
Parulekar, M. R.
Influence of aortic coarctation on myocardial glucose-6-phosphate dehydrogenase. J. R. E. Valadares, R. L. Singhal, M. R. Parulekar, and M. Beznak, 388.
Pastro, K. R.
Body temperature of chicks in response to lysine deficiency. K. R. Pastro, B. E. March, and J. Biely, 339.
Diminished thyroidal activity in chicks in response to lysine deficiency. K. R. Pastro, B. E. March, and J. Biely, 645.
Pearce, J. W.
Evidence for a humoral factor modifying the renal response to blood volume expansion in the rat. J. W. Pearce, H. Sonnenberg, A. T. Veress, and U. Ackermann, 377.
Pederson, R. A.
Preparation of highly active enterogastrone. J. C. Brown, R. A. Pederson, E. Jorpes, and V. Mutt, 113.
Pelletier, O.
Vitamin C activity of D-isoascorbic acid for the guinea pig. O. Pelletier and C. Godin, 985.
Turnover rates of D-isoascorbic acid and L-ascorbic acid in guinea pig organs. O. Pelletier, 993.
Pepino, A. M.
The survival of DF^{32}P-labelled erythrocytes in molybdate-fed rabbits. G. A. Robinson, V. E. O. Valli, B. J. McSherry, and A. M. Pepino, 343.
Comparison of ^{131}I retention in the plasma of rabbits fed toxic quantities of cupric or molybdate ions as supplements to a commercial pelleted diet or to an oats–alfalfa laboratory diet. A. M. Pepino, G. A. Robinson, S. T. Chou, and R. M. Liptrap, 635.
Petrovic, V. M.
Effect of high- and low-bulk diets on the thyroxine turnover rate in rats with acute and chronic exposure to different temperatures. O. Héroux and V. M. Petrovic, 963.
Phillips, W. E. J.
Ubiquinone levels of human liver in health and disease. W. E. J. Phillips, K. Hoppner, T. K. Murray, and J. S. Campbell, 227.
Philp, R. B.
Serotonin and other vasoactive agents in experimental decompression sickness. M. L. Clark, R. B. Philp, and C. W. Gowdey, 1033.
Plenderleith, I. H.
Effect of phytohemagglutinin on bone marrow protection and recovery in rodents. I. H. Plenderleith, 587.
Poirier, L. J.
The medial forebrain bundle (MFB) and ascending monoaminergic pathways in the cat. A. Parent and L. J. Poirier, 781.
Poloso, C.
Oscillatory behavior of the sympathetic system induced by picrotoxin. C. Polosa, P. Rosenberg, A. Mannard, N. Wolkove, and I. Wyszogrodski, 815.
Poupa, O.
Temperature and experimental acute cardiac necrosis. E. Faltová and O. Poupa, 295.
Prasad, K.
Transmembrane potential and force of contraction of the normal and potassium-deficient human atrial tissue in vitro. K. Prasad, 1015.
Preshaw, R. M.
Canine gastric and pancreatic secretion during intestinal distension and intestinal perfusion with choline derivatives. P. T. Sum, H. L. Schipper, and R. M. Preshaw, 115.
Price, J. E.
The cholinesterase-inhibitory characteristics of Parpanit and its analogues in relation to their protective effectiveness in the treatment of sarin-poisoned rodents. R. A. B. Bannard, J. G. Helie, J. E. Price, and I. W. Coleman, 1036.
Radde, I. C.
Calcitonin content of ultimobranchial body tissue in chicks, pullets, and laying hens. E. R. Wittermann, A. G. Cherian, and I. C. Radde, 175.
Ram, S.
Incorporation of radioactive label from pyrimidines into liver lipids. D. K. Myers and S. Ram, 731.
Ramirez, R. I.
Enhancement of drug activity by chymotrypsin: The synergistic anti-inflammatory activity of chymotrypsin and prednisolone. A. Wohlman, R. I. Ramirez, and S. Avakian, 301.

Rao, M. N.
The effect of inclusion of extraneous cellulose on the gastric emptying time in adult albino rats. K. S. Shurpalekar, O. E. Sundaravalli, and M. N. Rao, 387.
Regoli, D.
The renal action of angiotensin in rats after expansion of plasma volume or of extracellular fluid. D. Regoli, 969.
Renaud, S.
The recalcification plasma clotting time. A valuable general clotting test in man and rats. S. Renaud, 689.
Reynolds, A. K.
Studies on the cardiotoxicity of ouabain. A. K. Reynolds and M. L. Horne, 165.
Ridout, J. H.
Alleviation of dietary cirrhosis with betaine and other lipotropic agents. C. H. Best, J. H. Ridout, and C. C. Lucas, 73.
Roberge, F. A.
The nature of Wenckebach cycles. F. A. Roberge and R. A. Nadeau, 695.
Robertshaw, D.
Noradrenergic innervation of the arrectores pilorum muscles of the ox (*Bos taurus*). G. E. Thompson, D. Robertshaw, and J. D. Findlay, 310.
Robinson, G. A.
The survival of DF^{32}P-labelled erythrocytes in molybdate-fed rabbits. G. A. Robinson, V. E. O. Valli, B. J. McSherry, and A. M. Pepino, 343.
Comparison of ^{131}I retention in the plasma of rabbits fed toxic quantities of cupric or molybdate ions as supplements to a commercial pelleted diet or to an oats–alfalfa laboratory diet. A. M. Pepino, G. A. Robinson, S. T. Chou, and R. M. Liptrap, 635.
Rogers, C. G.
Responses of young rats to an oral contraceptive fed with varying levels of pyridoxine. J. L. Beare-Rogers, C. G. Rogers, and Z. I. Sabry, 685.
Rojo-Ortega, J. M.
Renin activity in aortic tissue of rats. J. Rosenthal, R. Boucher, J. M. Rojo-Ortega, and J. Genest, 53.
Effects of high temperature and acute diuresis on glucose-6-phosphate dehydrogenase activity of macula densa and plasma renin activity in rats. J. M. Rojo-Ortega, J. Rosenthal, R. Boucher, and J. Genest, 837.
Roschlau, W. H. E.
Pharmacological modification of the vascular response to systemically administered thrombolytic enzymes (CA-7). W. H. E. Roschlau, H. J. Freedman, and S. L. Miller, 369.
Rosenberg, P.
Oscillatory behavior of the sympathetic system induced by picrotoxin. C. Polosa, P. Rosenberg, A. Mannard, N. Wolkove, and I. Wyszogrodski, 815.
Rosenthal, J.
Renin activity in aortic tissue of rats. J. Rosenthal, R. Boucher, J. M. Rojo-Ortega, and J. Genest, 53.
Norepinephrine and renin content in arterial tissue from different vascular beds. J. Genest, S. Simard, J. Rosenthal, and R. Boucher, 87.
Effects of high temperature and acute diuresis on glucose-6-phosphate dehydrogenase activity of macula densa and plasma renin activity in rats. J. M. Rojo-Ortega, J. Rosenthal, R. Boucher, and J. Genest, 837.
Ruedy, J.
Determination of glomerular filtration rate with ^{57}Co-B_{12} and plasma protein binding of cyanocobalamin. R. I. Ogilvie and J. Ruedy, 349.
Ryan, J. F.
Intravascular transport of selenium by chick serum proteins. K. J. Jenkins, M. Hidiroglou, and J. F. Ryan, 459.
Sabry, Z. I.
Responses of young rats to an oral contraceptive fed with varying levels of pyridoxine. J. L. Beare-Rogers, C. G. Rogers, and Z. I. Sabry, 685.
Sakai, T.
Changes associated with experimental skin calcification. II. Changes of lipid, water content, and minerals during calcium accumulation. T. Yoshinari, T. Sakai, K. Iida, and R. L. Cruess, 505.
Sanders, H. D.
Procaine-induced contraction in vein and its modification by drugs. H. D. Sanders, 218.
The effect of temperature on the responses to electrical stimulation of the isolated cerebral cortex of the cat. J. P. Harwood and H. D. Sanders, 747.
Savoie, L. L.
Action of mast cell dischargers on the localization of Evans' blue. L. L. Savoie, 241.
Sawh, P. C.
Active transport of L-glucose and D-xylose in hamster intestine, in vitro. I. Bihler, N. D. Kim, and P. C. Sawh, 525.
Schapiro, S.
Response differences in some steroid-sensitive hepatic enzymes in the fasting rat. A. Yuwiler, E. Geller, and S. Schapiro, 317.
Schipper, H. L.
Canine gastric and pancreatic secretion during intestinal distension and intestinal perfusion with choline derivatives. P. T. Sum, H. L. Schipper, and R. M. Preshaw, 115.
Schlösser, E.
Interaction of saponins with cholesterol, lecithin, and albumin. E. Schlösser, 487.
Schönbaum, E.
Two sympathetic nerve supplies to brown adipose tissue of the rat. D. M. Derry, E. Schönbaum, and G. Steiner, 57.

Scott, J. W.
Some response characteristics of cells of the magnocellular division of the medial geniculate body of the cat. J. A. Love and J. W. Scott, 881.
Seely, J. F.
The role of hemodynamic factors on urinary calcium and magnesium excretion. A. Gonda, N. Wong, J. F. Seely, and J. H. Dirks, 619.
Selye, H.
Prevention of indomethacin-induced intestinal ulcers by spironolactone and norbolethone. H. Selye, 981.
Shanbour, L. L.
Effects of dopamine on the liver before and following administration of endotoxin. L. L. Shanbour and L. B. Hinshaw, 923.
Shibata, S.
Effects of Mn^{++} on ^{45}Ca content and potassium-induced contraction of the aortic strip. S. Shibata, 827.
Shurpalekar, K. S.
The effect of inclusion of extraneous cellulose on the gastric emptying time in adult albino rats. K. S. Shurpalekar, O. E. Sundaravalli, and M. N. Rao, 387.
Simard, S.
Norepinephrine and renin content in arterial tissue from different vascular beds. J. Genest, S. Simard, J. Rosenthal, and R. Boucher, 87.
Simard-Duquesne, N.
Oxidative phosphorylation, adenine nucleotides, and phosphofructokinase in the livers of rats receiving thrombogenic diets. N. Simard-Duquesne, 39.
Singhal, R. L.
Metabolic control mechanisms in mammalian systems. IV. Androgenic induction of hexokinase and glucose-6-phosphate dehydrogenase in rat seminal vesicles. R. L. Singhal and G. M. Ling, 233.
Influence of aortic coarctation on myocardial glucose-6-phosphate dehydrogenase. J. R. E. Valadares, R. L. Singhal, M. R. Parulekar, and M. Beznak, 388.
Sirek, A.
Serotonin and the plasma amino acid reduction caused by a single injection of growth hormone. O. V. Sirek, A. Niki, H. Niki, and A. Sirek, 611.
Sirek, O. V.
Serotonin and the plasma amino acid reduction caused by a single injection of growth hormone. O. V. Sirek, A. Niki, H. Niki, and A. Sirek, 611.
Skala, J.
The effect of cortisone on brown adipose tissue of young rats. P. Hahn, Z. Drahota, J. Skala, S. Kazda, and M. E. Towell, 975.
Smith, J. F.
Protection of L-cells by thiols against the toxicity of sulfur mustard. I. G. Walker and J. F. Smith, 143.
Smith-Vaniz, G. T.
Effects of reserpine on cardiac calcification in DBA mice. G. T. Smith-Vaniz, B. R. Clower, and J. L. Matheny, 521.
Solomon, S.
Mechanism of natriuresis following intravascular and extracellular volume expansion. H. Sonnenberg and S. Solomon, 153.
Solymoss, B.
Blood lipids in experimental cardiac necrosis. B. Solymoss, S. Varga, and H. G. Classen, 671.
Somogyi, A.
Biochemical studies on the anticalcinotic effect of sodium salicylate. I. Berczi and A. Somogyi, 597.
Sonnenberg, H.
Mechanism of natriuresis following intravascular and extracellular volume expansion. H. Sonnenberg and S. Solomon, 153.
Evidence for a humoral factor modifying the renal response to blood volume expansion in the rat. J. W. Pearce, H. Sonnenberg, A. T. Veress, and U. Ackermann, 377.
Srimal, R. C.
Analysis of the central vasomotor effects of (−)-*N*-(1-phenylethyl)guanidine, a new adrenergic neuron blocking agent. S. K. Bapat, B. N. Dhawan, and R. C. Srimal, 725.
Stavraky, G. W.
A study of gastric secretion induced by close arterial infusions of histamine in the dog. G. W. Stavraky, J. R. Knill, and R. B. Currie, 533.
Steiner, G.
Two sympathetic nerve supplies to brown adipose tissue of the rat. D. M. Derry, E. Schönbaum, and G. Steiner, 57.
Steinman, R.
Experimental production of hemorrhagic shock in the rat. R. Steinman and O. F. Denstedt, 305.
Stevens, E. D.
The effect of moderate exercise on the regional distribution of blood flow in the rat. E. D. Stevens, 771.
Stevenson, J. A. F.
Water intake of normal and desalivate rats on exposure to environmental heat. J. P. Lund, J. H. Barker, P. G. Dellow, and J. A. F. Stevenson, 849.
Studney, D. R.
The exchange of glucose across the liver cell membrane. G. Hetenyi, Jr., K. H. Norwich, D. R. Studney, and J. D. Hall, 361.
Sum, P. T.
Canine gastric and pancreatic secretion during intestinal distension and intestinal perfusion with choline derivatives. P. T. Sum, H. L. Schipper, and R. M. Preshaw, 115.

Sunahara, F. A.
Microcirculatory effects of prostaglandins. M. G. Viguera and F. A. Sunahara, 627.
Inhibition of prostaglandin effects by ouabain in the canine vascular tissue. D. Kadar and F. A. Sunahara, 871.
Sundaravalli, O. E.
The effect of inclusion of extraneous cellulose on the gastric emptying time in adult albino rats. K. S. Shurpalekar, O. E. Sundaravalli, and M. N. Rao, 387.
Sutherland, L. E.
Inappropriate values of the juxtaglomerular index during changes in rat serum sodium levels. L. E. Sutherland, 210.
Taylor, N. B. G.
A direct-reading mercury thermometer for the wet bulb globe temperature index. N. B. G. Taylor, L. A. Kuehn, and M. R. Howat, 277.
Taylor, R. M.
Vitamin B_{12} absorption in dogs with chronic isolated intestinal loops. R. M. Taylor, J. A. Hildes, and J. F. Lind, 497.
Teare, J. L.
Peripheral pathways and properties of uterine afferents in the cat. V. C. Abrahams and J. L. Teare, 576.
Thomas, G.
Regression of cardiac hypertrophies of various origin. M. Beznak, B. Korecky, and G. Thomas, 579.
Thompson, G. E.
Nonshivering thermogenesis in the newborn lamb. G. E. Thompson and D. McEwan Jenkinson, 249.
Noradrenergic innervation of the arrectores pilorum muscles of the ox (*Bos taurus*). G. E. Thompson, D. Robertshaw, and J. D. Findlay, 310.
Torres, E. C.
The effect of vasoactive drugs on local coronary flow. E. C. Torres and G. Brandi, 421.
Towell, M. E.
The effect of cortisone on brown adipose tissue of young rats. P. Hahn, Z. Drahota, J. Skala, S. Kazda, and M. E. Towell, 975.
Tremblay, G. M.
Location of epicardial pacemaker electrodes and myocardial contractility. G. M. Tremblay and M. Nahas, 267.
Comparative effect of procainamide and lidocaine on myocardial contractility. M. Nahas, J. Lachapelle, and G. M. Tremblay, 1038.
Uehara, P. S.
Observations on an anorexigenic material isolated from urine. J. R. Beaton and P. S. Uehara, 291.
Ulmer, W. T.
The effect of facial cold stimulation on airway conductance in healthy man. W. T. Josenhans, G. N. Melville, and W. T. Ulmer, 453.
Valadares, J. R. E.
Influence of aortic coarctation on myocardial glucose-6-phosphate dehydrogenase. J. R. E. Valadares, R. L. Singhal, M. R. Parulekar, and M. Beznak, 388.
Valli, V. E. O.
The survival of DF^{32}P-labelled erythrocytes in molybdate-fed rabbits. G. A. Robinson, V. E. O. Valli, B. J. McSherry, and A. M. Pepino, 343.
Varga, S.
Blood lipids in experimental cardiac necrosis. B. Solymoss, S. Varga, and H. G. Classen, 671.
Varma, D. R.
Effects of denervation on the sensitivity of the superior cervical ganglion of the cat to acetylcholine and McN-A-343. F. H. L. Vickerson and D. R. Varma, 255.
Veress, A. T.
Evidence for a humoral factor modifying the renal response to blood volume expansion in the rat. J. W. Pearce, H. Sonnenberg, A. T. Veress, and U. Ackermann, 377.
Vickerson, F. H. L.
Effects of denervation on the sensitivity of the superior cervical ganglion of the cat to acetylcholine and McN-A-343. F. H. L. Vickerson and D. R. Varma, 255.
Viguera, M. G.
Microcirculatory effects of prostaglandins. M. G. Viguera and F. A. Sunahara, 627.
Vittorio, P. V.
The effect of radioprotective agents on erythropoiesis in irradiated mice. P. V. Vittorio, E. A. Watkins, and S. Dziubalo-Blehm, 65.
The effect of erythropoietin on survival in irradiated polycythemic mice. P. V. Vittorio, E. A. Watkins, and S. Dziubalo-Blehm, 221.
Vohra, M. M.
The responses of rat and guinea pig vas deferens to cocaine. M. M. Vohra, 469.
Walker, I. G.
Protection of L-cells by thiols against the toxicity of sulfur mustard. I. G. Walker and J. F. Smith, 143.
Wardlaw, J. M.
The effect of decreased feeding frequency on body composition in mature and immature male and female rats. J. M. Wardlaw, D. J. Hennyey, and R. H. Clarke, 47.
Watkins, E. A.
The effect of radioprotective agents on erythropoiesis in irradiated mice. P. V. Vittorio, E. A. Watkins, and S. Dziubalo-Blehm, 65.
The effect of erythropoietin on survival in irradiated polycythemic mice. P. V. Vittorio, E. A. Watkins, and S. Dziubalo-Blehm, 221.

Webster, A. J. F.
Cold climate and cold temperature induced changes in the heat production and thermal insulation of sheep. A. J. F. Webster, A. M. Hicks, and F. L. Hays, 553.
Catecholamines and cold thermogenesis in sheep. A. J. F. Webster, J. H. Heitman, F. L. Hays, and G. P. Olynyk, 719.
Whittington-Coleman, P. J.
Reserpine inhibition of coronary arteriosclerosis. O. Carrier, Jr., B. R. Clower, and P. J. Whittington-Coleman, 105.
Wittermann, E. R.
Calcitonin content of ultimobranchial body tissue in chicks, pullets, and laying hens. E. R. Wittermann, A. G. Cherian, and I. C. Radde, 175.
Wohlman, A.
Enhancement of drug activity by chymotrypsin: The synergistic anti-inflammatory activity of chymotrypsin and prednisolone. A. Wohlman, R. I. Ramirez, and S. Avakian, 301.
Wojdan, A.
Prolongation of certain effects of amphetamine by chlorpromazine. L. E. Borella, F. Herr, and A. Wojdan, 7.
Wolkove, N.
Oscillatory behavior of the sympathetic system induced by picrotoxin. C. Polosa, P. Rosenberg, A. Mannard, N. Wolkove, and I. Wyszogrodski, 815.
Wong, N.
The role of hemodynamic factors on urinary calcium and magnesium excretion. A. Gonda, N. Wong, J. F. Seely, and J. H. Dirks, 619.
Wyszogrodski, I.
Oscillatory behavior of the sympathetic system induced by picrotoxin. C. Polosa, P. Rosenberg, A. Mannard, N. Wolkove, and I. Wyszogrodski, 815.
Yoshinari, T.
Changes associated with experimental skin calcification. II. Changes of lipid, water content, and minerals during calcium accumulation. T. Yoshinari, T. Sakai, K. Iida, and R. L. Cruess, 505.
Yousef, M. K.
^{75}Se-selenomethionine turnover as an index of protein metabolism during cold exposure of white mice. M. K. Yousef and J. R. Luick, 273.
Yuwiler, A.
Response differences in some steroid-sensitive hepatic enzymes in the fasting rat. A. Yuwiler, E. Geller, and S. Schapiro, 317.
